

## Outback Blue Creative

You have just been redirected here because Outback Blue Creative recently merged with Drumbeat where Pip Baker is now Art Director. What Are the Benefits of This?

Following the merge with Drumbeat we will be able to combine a strong local understanding with the significant benefits of:

- Direct and face-to-face access with Perth's print industry, media contacts and other service providers.
- Be able to provide you with leading edge web services and faster turnaround times on most projects.
- The ability to provide superior marketing solutions and technology to our clients in the Gascoyne region.

Please feel free to contact Drumbeat where you can expect the same great work and service you received from Outback Blue Creative.
